Professional Summary

Motivated and detail-oriented engineering student with a strong foundation in programming, problem-solving, and core technical concepts. Skilled in developing efficient solutions and working on real-world projects using modern technologies. Quick learner with a passion for innovation, teamwork, and continuous improvement, seeking an opportunity to apply technical skills in a dynamic organization.

Education

Bachelor of Technology in Computer Science and Engineering

July 2023 – June 2027

COER UNIVERSITY, ROORKEE

GPA: 8.0/10.0

Projects

XAI Application in Adversarial Robust Malware Detection – Python, SHAP, LIME

July 2025 - Dec 2025

- Implemented an Explainable AI (XAI) framework to enhance transparency and interpretability of machine learning models for robust malware detection in adversarial settings.
- Addressed cybersecurity challenges by integrating XAI to reduce black-box effects in deep learning models, enabling trustable, explainable predictions and aiding in defense against adversarial malware attacks.

MediBot - AI Medical Chatbot – Python, LangChain, FAISS, LLMs, Streamlit

April 2025 - May 2025

- Developed a RAG-based chatbot using LangChain and FAISS to answer queries from uploaded PDFs with high contextual.
- Implemented document chunking, embeddings, and LLM (Mistral-7B) integration to enable semantic search and reduce hallucinations.

Internship

Mern Stack Developer Intern, Codec Technologies Pvt. Ltd. – Remote

June 2025 – July 2025

- Developed a full-featured e-commerce platform with secure user authentication, product management, and seamless checkout, enhancing user experience and sales conversions.
- Built a dynamic social media dashboard with real-time data visualization and user analytics to improve engagement and streamline content management.

Technical Skills

Languages: C++, Python, SQL, JAVA, Javascript

Framework: TensorFlow, Hugging Face, React.js, Next.js

Tools and Platform: Git, Excel, MySQL, Visual Studio code, Google Colab

Coursework: Computer Networks, Operating System, Data Structures, Algorithms

Achievements/Certifications

- 3rd Place – Internal College Hackathon, COER University, Roorkee. April 2025
- 1st Consolation Prize – National Hackathon (Hackverse), IILM University, Gurugram. April 2025
- TVS Credit EPIC 7.0 - IT Challenge - Unstop | Credential Sep 2025
- Adobe India Hackathon - Unstop | Credential July 2025
- be10X - AI Tool Workshop | Credential May 2025
